Fish-Skin Leather.

Fish-skin leather has been so successful in imitating that made from animal hides that it is now almost impossible to distinguish between the two kinds. The bureau of fisheries and the bureau of standards at Washington are now trying to discover a simple and easy way of detecting the difference.

For any itching of the skin, for skin rashes, chaps, pimples, etc., try Doan's Ointment. 60c at all drug stores.—advertisement.

Now that the astronomers have informed this poor world that it is extremely far from the center of the universe, the poets who write about their loneliness will be lonelier than ever.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America)

KNOW YOUR CITY

The Birmingham (Ala.) Junior Chamber of Commerce is doing a great deal to aid scouting by a contest known as "I Know Birmingham." One hundred questions have been suggested by the different civic organizations covering the historical, geographic, population, climatic, industrial, transportation, public utility, municipal, educational, financial, real estate and general phases of the city. The scouts who successfully pass one of the examinations which are held each quarter receives a bronze bar, bearing the words "I Know Birmingham." And as soon as the scout earns this bar, his record in civic service is then kept by his scoutmaster and when he has rendered 100 hours of such service, a small bronze civic service medal is suspended by chains from this bar; then when his record, as certified by the scoutmaster, shows he has rendered 500 hours of civic service, a silver medal is substituted for the bronze; and then when his total reaches 1,000 hours, he will receive a gold medal in place of the silver.

This contest is stimulating much interest, not only among the scouts but among the citizens as well. In addition to this award, the 16 boys who pass the highest grades during the year are taken on a truck trip over some of the old southern battlefields and points of interest along the way. The 16 boys who take this trip will meet 16 men from the Junior Chamber of Commerce on the night before they leave, and hold a meet along the lines of the old-fashioned spelling match with these questions forming the basis of competition in place of the spelling of words.

THE SCOUT HAND BOOK.

"Reading Up" on All Things Having to Do With the Wonderful Outdoors is Important.

ELKS ADOPT BOY SCOUTS.

The Elks of Minneapolis have purchased as a permanent camp site for the use of local boy scouts, an 18-acre farm located on Lake Minnetonka which Scout Executive Dale pronounces the finest camp site in America. The former owner of the farm, Benjamin A. Faust, has not only made a generous sale price for the property, but has also agreed to help the Elks finance the enterprise. It is confidently expected that other Elks' lodges throughout the country will follow the example of their Minneapolis brothers.

And what did the boys themselves say to the proposition? "Oh, boy!" they exploded with glee. "A whole farm with woods an' hayloft an' lake to swim in an' everything. These Elks are regular guys!"

UNIVERSITY ADOPTS SCOUTING.

Two boy scout troops have been installed in the minimum department of the University of Notre Dame. Rev. James Burns, president of the university, has this to say:

"After investigating the boy scout movement under Catholic leadership and realizing the good it is accomplishing among our boys throughout the United States by inculcating such virtues as kindness, obedience and reverence, I take great pleasure in giving my endorsement to this praiseworthy work and will do all I can in a practical way to further the movement here at the University of Notre Dame."

BUEY BOY SCOUTS.

One hundred boy scouts set out to rid a Lawrence (Kan.) park of its dandelions, using gasoline to do the work.

Worcester (Mass.) scouts joined in search of a missing man, and Brockton scouts were called out by the police to search along the river for a young woman who, it was feared, had committed suicide.

Uniontown boy scouts were recently mobilized with "killing effect" in a swat-the-fly campaign.
